

# Certificate of Appreciation

Research Assistant of the CoronaNet Research Group

2020-05-08

To whom it may concern,

The CoronaNet Research Project recognises Abdelaziz Ibn Abdelouahab for the outstanding contribution as a Research Assistant (RA). We appreciate the dedication and marvellous effort in volunteering for the project. Abdelaziz Ibn Abdelouahab worked from 2020-04-18 to 2020-04-23 for the project. Abdelaziz Ibn Abdelouahab coded and updated policies for Senegal and without this support, we haven't had more than 14.000 entries within a month.

CoronaNet Research Project compiles a database on government responses to the COVID-19 crises. The primary objective is to collect as much information as possible about the diverse actions governments are taking to contain the coronavirus. This includes not only gathering information about which governments are responding to the coronavirus, but who they are targeting the policies toward (e.g. other countries), how they are doing it (e.g. travel restrictions, banning exports of masks) and when they are doing it. Together with over 250 political, social and public health science scholars from all over the world, CoronaNet presents an initial release of a comprehensive hand-coded dataset of more than 14,000 separate policy announcements from governments around the world visible since December 31st 2019. For more information, see [www.coronanet-project.org](http://www.coronanet-project.org)

Abdelaziz Ibn Abdelouahab collected an amazing amount of policies and became a country expert for Senegal. This role involved collecting and entering government policies related to COVID-19 Public Health Emergency. It involved classifying government policies in a Qualtrics database by coding an online survey and following procedures outlined in the Codebook. Titit toto

Abdelaziz Ibn Abdelouahab has invested everything possible to support not only the project but also collecting a dataset that supports policy makers and scientists in real-time. We appreciate this exceptional solidarity and thank Abdelaziz Ibn Abdelouahab for being part of this project.
